

ROLLER SHUTTER

- Enables fans to perform to their full potential, especially those featuring Variable Speed operation.
- When open, the shutter does not restrict air movement, maximizing a fan's airflow and efficiency at any speed.
- An insulated panel and precise construction allow the shutter to completely seal the opening during the winter months, keeping your barn comfortable even under the strongest cold winds.

PERFORMANCE

10% INCREASED AIRFLOW

15% MORE EFFICIENCY

with the Roller Shutter versus a traditional air-actuated shutter

WARRANTY, ETC.

- 3-year warranty on the entire Roller Shutter
- Protection guard not included

CONSTRUCTION

Single Phase, 110V 60Hz

- Motors include thermal protection
- Insulated panel for minimal heat transfer
- Powder-coated aluminum segments for long-lasting operation
- Stainless Steel #304 Hardware
- cULus or CE Certified motor

KEEPING COWS COOL!

THAT'S WHAT WE DO.
